Summary

I am a web developer with over a year of experience, proficient in essential web development technologies (HTML, CSS, JavaScript), and skilled in React.js, Redux, TypeScript, and Styled Components. I also have expertise in backend development, utilizing Node.js for server creation and database management with PostgreSQL and Redis. My commitment to continuous improvement drives me to enhance both front-end and back-end development skills to broaden my capabilities.

Experience

TOO Kleo | Almaty

Full Stack Developer | 09/2022 - Present

- Developed and maintained the user interface for web applications.
- Designed and managed databases to ensure efficient data storage and retrieval.
- Provided ongoing support and troubleshooting for the company's websites.
- Collaborated with the team to suggest improvements and enhancements for web applications.
- Utilized a tech stack that included React.js, Redux, RTK, TypeScript, Node.js, Express.js, PostgreSQL, Redis, and additional libraries to complete tasks and projects efficiently.
